

VIGNESH VELMURUGAN

Data Analyst | Excel | SQL | Python

Chennai, Tamil Nadu, India | [PHONE] | [EMAIL] | [LINKEDIN URL] | [GITHUB URL]

PROFESSIONAL SUMMARY

Analytical B.Com graduate targeting Junior Data Analyst and Business Analyst roles, with hands-on learning in Microsoft Excel, SQL, and Python. Focused on data cleaning, data analysis, and basic data visualization to turn raw data into clear reporting and business-focused data insights. Built EV ChargePulse, an Excel-based analysis project on EV charging demand and growth.

TECHNICAL SKILLS

Data Analysis	Microsoft Excel, SQL, Python
Excel	IF, IFS, AND, OR, ISBLANK; COUNT, COUNTIF, COUNTIFS; SUMIF, SUMIFS, AVERAGEIFS; XLOOKUP, VLOOKUP, INDEX + MATCH; UNIQUE, FILTER, SORT; Conditional Formatting; Date Functions
SQL	SELECT, WHERE, INSERT, UPDATE, DELETE, ALTER, CREATE TABLE, DISTINCT; Basic Filtering and Data Manipulation
Python	Variables, Data Types, Input/Output, Arithmetic and Comparison Operators, if / elif / else, Logical Operators, for and while Loops, Lists, Tuples, Sets, Dictionaries, Basic Problem Solving
Other	Data Cleaning, Basic Data Visualization

PROJECT

EV ChargePulse — Demand & Growth Intelligence | Microsoft Excel

- Developed an Excel-based data analysis and business intelligence project to understand EV charging demand patterns, growth trends, and performance.
- Cleaned and organized EV charging-related data to prepare it for accurate analysis and reporting.
- Applied Excel techniques such as lookup functions, conditional aggregation formulas, and conditional formatting to summarize and interpret the data.
- Structured the analysis to generate data insights that support business decision-making on EV charging demand and growth.

EDUCATION

Bachelor of Commerce (B.Com)	[GRADUATION YEAR]
[COLLEGE / UNIVERSITY]	

TRAINING

Code99 IT Academy — Data Analytics Training
Focus areas: Data Analytics, Microsoft Excel, SQL, and Python.
